

Aree Protette  
Alpi Cozie

## **RETE NATURA 2000**

Direttiva 92/43/CEE "Habitat" del 21 maggio 1992

D.P.R. n. 357 del 08 settembre 1997

L.R. n. 19 del 29 giugno 2009

# **ZSC IT1110010**

# **Gran Bosco di Salbertrand**

## **Piano Naturalistico con valenza di Piano di Gestione**

**ALLEGATO VI**  
**ELENCO FLORISTICO**  
**2024**

Di seguito si riporta l'elenco floristico completo derivante dalla sintesi dei dati. Vengono indicate le specie osservate durante la campagna di monitoraggio effettuata.

| TAXON                                                                         | Osservazioni 2023 |
|-------------------------------------------------------------------------------|-------------------|
| Abies alba Mill.                                                              | x                 |
| Acer opalus Mill. subsp. opalus                                               |                   |
| Acer opulifolium Chaix                                                        |                   |
| Acer pseudoplatanus L.                                                        | x                 |
| Achillea distans Waldst. & Kit. ex Willd. subsp. stricta (Gremli) Janch.      |                   |
| Achillea macrophylla L.                                                       | x                 |
| Achillea millefolium L.                                                       | x                 |
| Achillea nana L.                                                              | x                 |
| Achillea roseoalba Ehrend.                                                    | x                 |
| Achnatherum calamagrostis (L.) P.Beauv.                                       |                   |
| Aconitum lycoctonum L. emend. Koelle                                          | x                 |
| Aconitum lycoctonum L. emend. Koelle subsp. vulparia (Rchb. ex Spreng.) Nyman |                   |
| Actaea spicata L.                                                             |                   |
| Adenostyles alliariae (Gouan) A.Kern.                                         |                   |
| Adenostyles alpina (L.) Bluff & Fingerh. subsp. alpina                        | x                 |
| Adoxa moschatellina L. subsp. moschatellina                                   | x                 |
| Aegopodium podagraria L.                                                      |                   |
| Aethionema saxatile (L.) R.Br.                                                |                   |
| Agrimonia eupatoria L. subsp. eupatoria                                       |                   |
| Agrostis alpina Scop.                                                         |                   |
| Agrostis capillaris L. subsp. capillaris                                      | x                 |
| Agrostis stolonifera L. subsp. stolonifera                                    | x                 |
| Ajuga pyramidalis L.                                                          |                   |
| Alchemilla alpina L.                                                          |                   |
| Alchemilla colorata Buser                                                     |                   |
| Alchemilla coriacea Buser                                                     |                   |
| Alchemilla flabellata Buser                                                   | x                 |
| Alchemilla glaucescens Wallr.                                                 |                   |
| Alchemilla hoppeana (Rchb.) Dalla Torre                                       |                   |
| Alchemilla reniformis Buser                                                   | x                 |
| Alchemilla vulgaris L.                                                        | x                 |
| Alchemilla xanthochlora Rothm.                                                | x                 |
| Allium carinatum L.                                                           | x                 |
| Allium schoenoprasum L. subsp. schoenoprasum                                  | x                 |
| Allium vineale L.                                                             |                   |
| Alnus alnobetula (Ehrh.) K.Koch                                               | x                 |

|                                                                                                                   |   |
|-------------------------------------------------------------------------------------------------------------------|---|
| <i>Alnus incana</i> (L.) Moench                                                                                   |   |
| <i>Alnus viridis</i> (Chaix) DC.                                                                                  |   |
| <i>Alopecurus gerardi</i> Vill.                                                                                   | x |
| <i>Alyssum montanum</i> L.                                                                                        |   |
| <i>Amelanchier ovalis</i> Medik. subsp. <i>ovalis</i>                                                             |   |
| <i>Androsace adfinis</i> Biroli subsp. <i>brigantiaca</i> (Jord. & Fourr.) Kress                                  |   |
| <i>Androsace alpina</i> (L.) Lam.                                                                                 |   |
| <i>Androsace carnea</i> auct.                                                                                     |   |
| <i>Androsace obtusifolia</i> All.                                                                                 |   |
| <i>Androsace villosa</i> L. subsp. <i>villosa</i>                                                                 | x |
| <i>Androsace vitaliana</i> (L.) Lapeyr.                                                                           |   |
| <i>Androsace vitaliana</i> (L.) Lapeyr. subsp. <i>canescens</i> O.Schwarz, nom. inval., p.p.                      |   |
| <i>Anemone baldensis</i> L.                                                                                       |   |
| <i>Anemonoides baldensis</i> (L.) Galasso, Banfi & Soldano                                                        |   |
| <i>Antennaria carpatica</i> (Wahlenb.) Bluff & Fingerh. subsp. <i>helvetica</i> (Chrték & Pouzar) Chrték & Pouzar | x |
| <i>Antennaria carpatica</i> auct. Fl. Ital.                                                                       |   |
| <i>Antennaria dioica</i> (L.) Gaertn.                                                                             | x |
| <i>Anthericum liliago</i> L.                                                                                      |   |
| <i>Anthoxanthum nipponicum</i> Honda                                                                              | x |
| <i>Anthoxanthum odoratum</i> L.                                                                                   | x |
| <i>Anthriscus sylvestris</i> (L.) Hoffm. subsp. <i>sylvestris</i>                                                 | x |
| <i>Anthyllis vulneraria</i> L. subsp. <i>polyphylla</i> (DC.) Nyman                                               | x |
| <i>Anthyllis vulneraria</i> L. subsp. <i>vulneraria</i>                                                           | x |
| <i>Anthyllis vulneraria</i> L. subsp. <i>vulnerarioides</i> (All.) Arcang.                                        | x |
| <i>Aquilegia alpina</i> L.                                                                                        |   |
| <i>Aquilegia atrata</i> W.D.J.Koch                                                                                |   |
| <i>Arabis alpina</i> L. subsp. <i>alpina</i>                                                                      |   |
| <i>Arabis ciliata</i> Clairv.                                                                                     |   |
| <i>Arabis hirsuta</i> (L.) Scop.                                                                                  |   |
| <i>Arbutus uva-ursi</i> L.                                                                                        |   |
| <i>Arctium lappa</i> L.                                                                                           |   |
| <i>Arenaria ciliata</i> L.                                                                                        |   |
| <i>Arenaria gothica</i> Fr. subsp. <i>moehringioides</i> (Murr) M.B.Wyse Jacks. & J.Parn.                         | x |
| <i>Arenaria grandiflora</i> L. subsp. <i>grandiflora</i>                                                          | x |
| <i>Arenaria serpyllifolia</i> L. subsp. <i>serpyllifolia</i>                                                      | x |
| <i>Aristolochia pallida</i> Willd.                                                                                |   |
| <i>Armeria alpina</i> Willd.                                                                                      | x |
| <i>Armeria arenaria</i> (Pers.) Schult.                                                                           | x |
| <i>Armeria arenaria</i> (Pers.) Schult. subsp. <i>arenaria</i>                                                    |   |
| <i>Arnica montana</i> L. subsp. <i>montana</i>                                                                    | x |
| <i>Arrhenatherum elatius</i> (L.) P.Beauv. ex J.Presl & C.Presl subsp. <i>elatius</i>                             |   |
| <i>Artemisia absinthium</i> L.                                                                                    | x |
| <i>Artemisia genipi</i> Weber ex Stechm.                                                                          |   |
| <i>Artemisia glacialis</i> L.                                                                                     | x |
